

Q. Will there be similar vendors on the same day?

A. No, we will keep each vendor to its own category for the day. For example, 1 vendor will sell meat, 1 vendor will sell candles, etc.

Q. What is our goal?

A. Meet the needs of the community by offering products that simplify their shopping with the best selection and providing a great atmosphere.

Q. How will we advertise?

A. We will post on our website, Facebook, Instagram and other social media platforms as well as incorporating our market on other websites that share related information.

Q. What time do I show up?

A. We would like everyone to be ready to go 15 minutes prior to our market opening.

Q. What do I need to set up?

A. We ask that each vendor bring everything required to operate your space, table, chairs, portable generator, tent, etc.

Q. How much product should I bring?

A. As noted, this is our first full season as a farmers' market. Our traffic gets busier as the summer continues with June - Sept being

our busiest times. We want you to capitalize on those maximum opportunities.

Q. May we leave early if we sell out.

A. We will accommodate vendors to leave early if they sell out prior to our market closing.

Q. Have questions during market

A. Please notify the market manager immediately of any issues you might be having on-site and we will help you in any way we can.

Q. Payment systems

A. We have Wi-Fi on site and appreciate the fact that a few vendors have their own hot spots. We allow our vendors to accept any means of payment they are comfortable with.

Q. What if I can't make it for every market?

A. Should a vendor not be able to attend every market. We can help! We can sell for you at a 10% fee of whatever profits are made that particular day.

Q. Do you allow reselling?

A. Although we would like everyone to sell goods/foods that they grow and make themselves, we will allow a certain percentage of resellers to operate.
